

Course Selection Frequently Asked Questions

Where do I find the course selection website?

Course selection is made ONLINE through [MYED](#).

There will be a Course Selection link on the HOME PAGE of the FULTON WEBSITE! <https://clarencelfulton.sd22.bc.ca/>

I need to remember or know the login for MYED. What do I do?

Please get in touch with the main office staff to help with MyEd logins.

I don't have a computer at home. Can someone enter my course selections?

Every student will be invited to select their courses during an in-school session on February 25 to March 9. Each class will have a scheduled time where staff will be available to support students through the course selection process.

There are computers in the school counselling area and the library that students can use to select their courses.

Students need to be actively involved in selecting their courses. We can help any student in need.

How are students placed in the classes? How are schedules built?

The scheduling software creates schedules based on a random process, where each student has the same chance to get the course they select. It is **NOT** a 1st Selected; 1st Scheduled

Where do I get information about what courses to pick for next year?

1. Grade-level presentations are scheduled at the end of Feb, as well as a parent presentation. Check out the Course Change Presentations <https://clarencelfulton.sd22.bc.ca/course-selection-2025>
2. BC Post secondary requirements, check out <https://www.educationplannerbc.ca/search>.

When does the course selection open? When will it close?

Course selection

- Opens February 25th
- Closes March 9th

How many courses do I need to pick for next year?

All students are **required to have eight courses** which is considered a full schedule.

Where possible, we also recommend **selecting ALTERNATES** in case of a conflict within the master schedule.

How do I decide what Math to take?

Consider the following:

1. What level of Math are you in NOW—and consider continuing at the same level
2. Check your post-secondary program requirements. Research here <https://www.educationplannerbc.ca/>
3. Seek advice/recommendation from your Math teacher

What about ONLINE courses next year?

Students are free to register for an online course at any time throughout the year [SD22 online learning Vlearn](#) or [Provincial Listing of all Online schools/courses](#).

Fulton has **limited capacity** to offer a block of time in the schedule to work on an online course. (i.e. computers, teacher time and supervision). Requests for online support blocks will be considered AFTER a student is REGISTERED and ENGAGED in a course, AND these requests will be dealt with in September.

Can I pick a course to be scheduled for a specific semester?

Every year the master schedule is finalized in late June/Early July, so it is NOT possible to pick your courses for a specific semester. You must wait until schedules are released in August and request a CHANGE if necessary.

Can I pick my teachers for the courses that I want?

Teachers' assigned classes are finalized on the 1st day of school, so it is impossible to pick your specific teacher(s).

Can I get a Learning Center Support Block?

Learning Center blocks are reserved for those students who have a CASE MANAGER.

Can I get a SPARE block?

All students are expected to have eight courses on the schedule for the 1st day of school.

SOME Grade 12's MAY get a 2nd semester for a spare.

How do I repeat a course? Failed? Better mark?

FAILED

If you fail a required course, you will be automatically re-scheduled

BETTER MARK

We have limited space for students to repeat a course for a better mark. In September, we will be better able to know if "repeating a course for a better mark" is possible.

I am in grade 9(10, 11) and want to pick some grade 10 (11, 12) courses. How can I choose these courses?

Decisions about placement in these courses will be made AFTER the 1st week of classes. We must be sure any student in a particular grade has access to the courses in their grade level.

I want to graduate early. How can I select courses to make this happen?

When student schedules are released in August, you contact your school counsellor to explore the possibility of graduating early.

Will I see my schedule before the end of June?

Sorry no. Given the complexity of the scheduling software, students' schedules are finalized in July. Schedules will be released on MyEd in early to mid-August.

What if I would like to change what schedule I see in MyEd account?

A couple of things to consider...

1. A software program creates the schedule based on the choices and alternates you made in March
2. Courses and # of sections of courses that are offered are based on the following:
 - graduation requirements
 - availability of physical space and equipment
 - student choices

We intend and wish that students get the courses they selected. Still, a guarantee of a 100% match between your choices and your schedule is impossible. School Counsellors are back at school the week before school starts to help students change their schedules.
